

BACILLI IN BLOOD.

Recent experiments as read before the last Congress of Surgeons General, leave no doubt that the true way to CURE THE SYSTEM OF MICROBIAL is through the pores of the skin. It has been found that a remedy which kills the Microbi will also destroy the life of the patient; but it has also been found that the Microbi can be forced out through the skin, and it is in this way that the S.S.S. relieves the system of poison.

HAVING SUFFERED much from Contagious Blood Poison, after using half a dozen bottles of S.S.S. my skin was restored to perfect health, and all eruptive sores disappeared. You are at liberty to take the life of my statement that you wish to see CROSBY BROWN, 208 Third Avenue, Pittsburgh, Pa.

THE CASH BALANCE.

WHAT IT IS WITHOUT THE UNAVAILABLE ITEMS.

A Falling Off in Receipts Since July of Four and a Half Million Dollars Compared With Last Year.

The Treasury Showing. Special to the Gazette.

WASHINGTON, Nov. 7.—The superior interest in the elections diverted attention from the statement issued by the treasury department on Monday concerning the actual condition of the debt and the actual magnitude of receipts and expenditures, as compared with those of October, 1890. The secretary of the treasury presents his usual faithful statement of the cash balance, giving the unavailable items of subsidiary coin and deposits in the national bank depositories to make up \$34,671,293, whereas the actual available cash with out these unavailable items was \$3,428,200. But the secretary is unable to hide the facts revealed in the comparative statement of receipts and expenditures. Since July the receipts exceeded the expenditures only about \$500,000, while in the same period last year the receipts exceeded the expenditures by \$8,000,000. But in October of this year the receipts were less by more than \$1,000,000 than the expenditures for the month, and they were \$5,000,000 less than in October, 1890.

The Newark Ready. BOSTON, Mass., Nov. 7.—The cruiser Newark was floated out of the dry dock at the Charleston navy yard yesterday. Only a portion of the repairs was completed, owing to orders that the vessel must be ready for sea before the 10th. The hull was scraped and painted and the decks caulked.

A Bank Paid Out. WASHINGTON, Nov. 7.—The comptroller of the currency has paid a final dividend of 5.55 per cent in favor of the creditors of the California national bank of San Francisco. This makes 100 per cent and interest in full to October 7 on claims amounting to \$45,667.40.

Secretary of Legation. WASHINGTON, Nov. 7.—R. McCreery of Michigan has been appointed secretary of legation at Santiago, Chile.

The Burlington Route. Most people know what the Burlington Route is—some people, perhaps, do not know that it is the Model Railroad of the West. The Burlington Route is the name of a first-class railroad from Chicago, Peoria and St. Louis to the principal cities and towns of Illinois, Iowa, Missouri, Wisconsin, Minnesota, Nebraska and Colorado. The 7000 miles of this great road pass into and through the best farming regions of these great states, reach Deadwood, So. Dakota, and the new mining country of the Black Hills. Along the lines of the Burlington Route are the best opportunities in the West, Northwest and Southwest for the farmer, the merchant, the manufacturer and the pleasure seeker. The route runs through passenger service every day in the year between St. Louis, Chicago and Peoria, Kansas City, Atchison, St. Joseph, Council Bluffs, Omaha, Lincoln, Denver, St. Paul and Minneapolis, making connections at these points with all Eastern and Western roads, and giving the traveling public unequalled facilities.

For speed, safety, comfort, character of equipment and track, and efficient service for passengers and freight, it is unequalled. Send ten cents in postage stamps to the General Passenger Agent and get a handsome wall map of the United States and a descriptive folder of the train service. For further information, tickets, rates, maps, etc., call on your nearest railroad agent, or address A. C. DAWES, General Manager, St. Louis, Mo. St. Joseph, Mo.

For the Gazette. ONLY A WORD. BY EDITH RANDAL.

Only a word, but what comfort it brought To the sorrowing heart that was burdened with grief. Only a word, but it brought such relief To the soul that for sympathy vainly had sought.

Only a word, yet a word may contain All the feelings that lie in the breast of a friend. And to one who has promised to love to the end A thoughtful word spoken may cause lasting pain.

Only a word, but it pierced like a knife. For 'twas spoken in anger when conscience had fled. Though the word be forgiven it can never be unsaid. And the scar of the wound may be carried through life.

Only a word, but how little we know What a harvest may spring from the seed that we sow. When we utter a word—let us truly we know. More careful we be of the seed that we sow.

THE CRISIS PAST. The Island City Savings Bank Pays Depositors Promptly.

GALESTON, TEX., Nov. 7.—The run on the Island City Savings bank spent its force yesterday. This morning when the bank opened there were but few depositors who called to get their funds. The readiness with which the bank met all demands yesterday, and the firm action of its officials, and much to do in restoring the confidence of its creditors in its solvency, and this evening the bank closed having \$100,000 more in its vaults than it had before last. A large number of those who withdrew their funds yesterday redeposited them to-day, and the crisis is past.

B. W. McCulloch, General Passenger and Ticket Agent.

A Burlington-Rock Island Snarl. A Chicago Dispatch says: The Burlington and Rock Island are at odds, the former charging the latter with violation of association agreements in manipulating ticket sales through brokers' offices. The suspicion that the Rock Island was not acting fairly, the passenger department of the Burlington sent a man to E. A. Johnson's office, where he purchased a round-trip ticket to St. Louis at a price much less than the regular rate. He also ascertained that the man who sold it to him received 81 commission. Rock Island officials have since been told that Johnson's hands by mistake. The general passenger agent of the Burlington sent him to another office of Johnson's, and there purchased another ticket at the same terms, and discovered the payment of another commission.

The next deal was with Broker Mulford. A man and his wife wanted transportation to Denver. The Burlington sent them down to Mulford's office, where it is alleged that Mulford gave this couple a card of introduction to the general passenger agent of the Rock Island. The Burlington sent them down to Mulford's office, where it is alleged that Mulford gave this couple a card of introduction to the general passenger agent of the Rock Island.

Tail Lights. George D. Moore, traveling freight agent of the Wabash, with headquarters at Moberly, Mo., is in the city. Col. J. Gordon Taylor, general livestock inspector of the Wabash, is distributing miniature cotton bales among his friends. The colonel's faith is pinned first to Texas steers, next to Texas cotton. The Cotton Belt management has shown great activity in bridge building of late. It has completed an iron and steel drawbridge across the Ouchitka river at Camden, Ark., 900 feet long, the structure and best bridge in that state. It has also completed an iron and steel draw bridge in length at Pine Bluff across the Arkansas, the fourth largest bridge in the world. The bridge is a combination of iron and steel bridge over the St. Francis river, on the Arkansas-Missouri division.

An official of the Pennsylvania lines, in speaking of the frequency with which trains are late in arriving West, said that every month made it more evident that the Pennsylvania proper, from New York to Pittsburgh, must be converted into a four-track line, and the track in the West must be converted into a four-track line, and the passenger business would furnish all the business which can well be done on the other two tracks.

The Central and Chester is progressing nicely with track-laying, and the managers are equipping their road very substantially. They have just received a new locomotive and complete passenger train. This train will engine any of the latest design, and would be a credit to one of the trunk lines. The locomotive is one of Baldwin's latest. The train was built by the St. Charles car company, and the complete train, including the first-class coach is of mahogany finish, has Scarritt high back seat, ladies' and gentlemen's toilet-rooms, etc. The smoker is very nice, and the mail and baggage car is a model of convenience and beauty.

An English railway engineer has invented a useful adjunct to the ordinary semaphore signal, consisting of a whistle which is blown by compressed air. When the blade is at danger a spring lever is made to rise so as to lie along the inner side of the rail. This lever projects slightly above the rail, and when depressed by the wheels of a passing engine a piercing shriek is emitted by the whistle at the side of the track. This combination of visible and audible signals affords additional assurance of safety.

A Good Excuse. Special to the Gazette.

Houston, Tex., Nov. 7.—The Houston and Texas Central railway had contemplated vast improvements at Hempstead, Tex. Not complying with its promises the mayor of Hempstead wrote the Central railway, telling it that the railway had been in possession of the land since it was first surveyed, and that the railway had been in possession of the land since it was first surveyed, and that the railway had been in possession of the land since it was first surveyed.

Tariff Amendments. Special to the Gazette.

Austin, Tex., Nov. 7.—The commission issued circular No. 36 to-day amending commodity tariff No. 10 on brick, stone and sand as follows:

Ninth exception.—The existing rate on sand from Mackey's switch and all intermediate points on the San Antonio and Austin, and from Kingsbury on the Galveston, Harrisburg and San Antonio railway to San Antonio, shall remain in force.

Tenth exception.—The rate on brick from Colorado on the San Antonio and Arkansas Pass railway to San Antonio shall be \$10 per 1000 bricks.

Eleventh exception.—The minimum number of fire bricks per car shall be 5000.

Twelfth exception.—The existing rate on lime rock shipped for smelting purposes from any Texas point to any Texas point shall remain in force unless the rates prescribed in this tariff are less.

The fifth exception is changed to read as follows: The rate on stone for city work at any point where work is being done under contract with the United States government or private persons or corporations for the improvement of the bayous or harbors of Texas shall be as follows, except where a lower rate shall have been contracted for, in which case the contract rate shall obtain: One hundred and sixty miles or less, 7 cents per 100 pounds, except where the mileage carries a less rate under the tariff.

Indicted for Violating the Interstate Commerce Law. St. Joseph, Mo., Nov. 7.—The United States grand jury, which has been investigating the dealings of the Howell Lumber company, which several months ago returned six indictments against S. R. Howell and George W. Howell yesterday afternoon. The indictments charged the Howells with having effected an arrangement with W. D. Mott and Edward Tibbitts, both of Atchison, agent and warehouseman for the Rock Island road, whereby the two were to return false weights for cars of lumber and thereby were to get differences in the cost of lumber whereby they were able to sell below all competition. It is charged that in this way the Howells were the gainer by many thousands of dollars and that their action was in direct violation of the provisions of the interstate commerce law. Warrants have been issued for their arrest.

THE BONES WERE FOUND. After Twenty Years, a Widow Searches for Her Husband's Remains.

Special to the Gazette.

SAN ANTONIO, TEX., Nov. 7.—Thirty years ago in Uvalde county, near the town of Dhanis, Henry Schumaker was shot and killed by Michael Wepf, now a prosperous resident of Eagle Pass. It was war time and the country was disturbed. Wepf was constable, and met Schumaker in the road. Schumaker had a gun which he carried in a satchel, and he was in the act of drawing it when Wepf demanded its surrender and in the ensuing struggle Schumaker was slain. He was buried and little more was thought of it. He left a wife, Mary Schumaker, and after the lapse of time she went West. Two days ago she came to recover her husband's bones but she has been unable to find them. She has been told that the bones of the country that all trace of Schumaker's burial spot was lost. Finally a boy named Nye came to the rescue. He had heard of the occurrence and prospect of the country had been driven over the resting place of the dead man. All signs of the coffin was gone. His clothing had disappeared, but lying on the breast was carried in a satchel of his wife's. He had heard of the occurrence and prospect of the country had been driven over the resting place of the dead man. All signs of the coffin was gone. His clothing had disappeared, but lying on the breast was carried in a satchel of his wife's. He was in the act of drawing it when Wepf demanded its surrender and in the ensuing struggle Schumaker was slain. He was buried and little more was thought of it. He left a wife, Mary Schumaker, and after the lapse of time she went West. Two days ago she came to recover her husband's bones but she has been unable to find them. She has been told that the bones of the country that all trace of Schumaker's burial spot was lost. Finally a boy named Nye came to the rescue.
